## Skills

---

**Languages:** Java, JavaScript/Typescript, C, Python, SQL, HTML5/CSS3

**Tools:** Node.js, Express.js, React.js/React Native, Next.js, Spring, Prisma

**Others:** AWS, Scripting, Unit Testing, Data Structure and Algorithm

## Education

---

**Middlesex University**, London – Bsc Information Technology 2024

**Aptech Computer Education**, Port Harcourt – Advanced Diploma in Software Engineering (ADSE) 2023

## Experience

---

**Co-Founder / Software Engineer**, Eonace – Port Harcourt, Nigeria July 2022 – Present

Developed a user-friendly platform facilitating the purchase of gift cards, airtime recharge, electricity bill payments, and online service transactions, enhancing convenience for users in their homes or workplaces.

- Innovated a mobile application using Expo, React Native, and TypeScript, garnering 1500+ downloads across app stores, and continually enhancing its features.
- Orchestrated deployments and ongoing optimizations for the Eonace platform, ensuring seamless user experiences and reliability.

**Backend Engineer**, Scud Technologies – Port Harcourt, Nigeria October 2022 – May 2023

- Engineered high-performance REST APIs using Node.js and Express, ensuring seamless functionality across web and mobile applications.
- Optimized data access and database performance by seamlessly integrating Prisma ORM, resulting in a remarkable 25% reduction in query response times.
- Employed web sockets to establish real-time communication channels between clients and servers, enhancing user experiences and enabling instantaneous updates

## Projects

---

### Eonace

[eonace.co](https://eonace.co)

- Platform that makes it easy for users to buy gift cards, top up their airtime, pay their electricity bills, and handle online service transactions.
